GLASS PARTNERS

Your Partner in Glass™

About Glass Partners – Your Partner in Glass™

Established in 2010, Glass Partners is one of the largest glass companies in Africa. Our production facilities stock, process and distribute a comprehensive and diversified product range.

We have a collaborative approach with our customers to design glass solutions fit for purpose.

Our hands-on management team, supported by experienced professionals are unrivalled in the glass industry. We provide support and advice on all technical glass aspects complying with relevant standards. Through our investment in quality glass manufacturing equipment, and people that have extensive glass knowledge, we have a proven track record of being able to deliver timeously on projects both large and small.

Our operations

Glass Partners have manufacturing facilities conveniently and strategically situated in most major centres across South Africa. This enables us to promptly deliver exceptional quality glass products to your specifications. Our facilities have been certified internationally to manufacture safety glass products to ISO quality standards.

Glass Partners – Conveniently located to provide products and services in Southern Africa.

GLASS PARTNERS

Your Partner in Glass™

Our memberships and expertise

Glass Partners are proud members of AAAMSA and SAGGA. We uphold the National building standards and continue to improve our operations to remain a leading manufacturer.

Our Laminating Glass facilities are approved by Lloyd's Register Quality Assurance to ISO 9001 Quality Management System Standard.

We employ several Professionally trained and experienced people that are members of SAGI.

Our people are certified by the National Fenestration Ratings Council (NFRC) and the South African Fenestration and Insulation Energy Rating Authority (SAFIERA) utilising Berkley Lab Window, Therm and Optics. This enables us to provide you with accurate and certified simulation data for green building design.

GLASS PARTNERS

Your Partner in Glass™

A Proven Track Record

We are at the forefront of glass innovation, leading the way to world class glass and façade solutions.

Our world class suppliers and manufacturing systems provide us with up-to-date technologies and the latest in leading global glass innovations.

Since our inception in 2010, we have collaborated with professional teams and installers to successfully complete thousands of projects large and small.

Our Professionally trained people allow us to remain at the pinnacle of designing solutions for building projects requiring high performance Low E glass. Regardless of project type or size, we partner with you to deliver buildings that provide comfort for its occupants and are aesthetically pleasing.
